

Coronavirus Update

Given the recent CDC guidance and the evolving dynamics of the Coronavirus pandemic, Fox Haven Country Club is announcing the following in an effort to keep members aware:

Clubhouse Update

The clubhouse is currently open for normal dining. We have cancelled all group parties and events. As long as we can practice "social distancing" in the dining room and lounge we will continue to offer normal dining.

As always, take-out service is available. We will soon have a special Take-Out menu we will be offering which will continue even if we do make a decision or have a government mandated restaurant closing. We will be emailing this menu to you soon.

Golf Update

The golf course is open for normal play and will continue to be open even if the clubhouse should close operations. Most medical experts consider golf courses one of the safest places to be, being outdoors with ample space and plenty of space to practice "social distancing". We will be taking precautionary measures to ensure safety and eliminate contact points including the following:

- Bunker rakes will be removed from bunkers
- It is recommended flagsticks be left in the hole and not touched
- Cups may be raised or altered to eliminate touching (ball is holed when cup is hit)
- Restrooms on course will remain closed
- Water stations will be removed from the course
- Practice green flags will be removed
- Members are encouraged to use individual carts

CDC Recommendations and Club Safety

Fox Haven CC is taking additional precautionary measures to ensure the health and safety of all our members and staff. This is our highest priority. We are monitoring the situation hour-by-hour, day-by-day and are committed to providing our members with a safe and hygienic environment including:

- daily cleaning and sanitizing of all frequently touched surfaces including tables, chairs, handrails, doors, menus, etc.
- Increase the number of hand sanitizer stations throughout the club
- Provide disposable gloves for all staff
- Increase the frequency of rest room cleaning
- Suspend large gatherings
- No self service: F&B staff will assist members should we have any buffets
- Suspend high-touch activities, hugs, and handshakes

If you are higher risk for serious illness because of your age or because you have a serious long-term health problem, it is extra important for you to take necessary, recommended actions by the CDC to reduce your risk of getting sick from the Covid-19 disease. If you are at higher risk we ask that you do not enter the clubhouse.

Thank you for your continued understanding of all the new challenges we face as a club community and diligence in following the CDC guidelines for preventing the spread of this disease.

Sincerely,

Rob Collins
General Manager
